## **DETAILED ACTION**

### **Claim Objections**

Claim 8-24 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n).

### ***Information Disclosure Statement***

The prior art documents submitted by applicant in the Informational Disclosure Statements filed on January 30, 2007 and March 26, 2007 have all been considered and made of record (note the attached copy of form PTO-1449).

### ***Drawings***

Thirteen (13) sheets for formal drawings were filed September 19, 2006 and have been accepted by the Examiner.

### ***Specification***

Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

### ***Allowable Subject Matter***

Claims 1-7 are allowed.

Claims 8-24 would be allowable if amended to be in proper dependent form.

Art Unit: 2874

The following is an examiner's statement of reasons for allowance: The prior art cited on attached form PTO-892 is the most relevant prior art known, however, the invention of claims 1-7 distinguishes over the prior art of record for the following reasons.

Regarding claims 1-7; the claims are allowable over the prior art of record because none of the references either alone or in combination disclose or render obvious a method for designing an optical pulse shaper including a first optical propagation line unit having a nonlinear medium and a dispersion medium concatenated and calculating based on design specifications a quasi-periodic stationary pulse of which a waveform of an input optical pulse is similar to that of an output pulse from the propagation line unit. Tadakuma et al. discloses an optical pulse waveform conversion device having a nonlinear medium and a dispersion medium, but does not calculate a quasi-periodic stationary pulse based on design specifications. Claims 2-7 depend from claim 1.

### ***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
